

LUCERNA

LIGHTING

LUPI

RECESSED

STEP LIGHT

The Lupi is an In-ground fixed recessed fitting which can be used to uplight Arches, columns and fireplaces. It can also be used as a recessed wall light to create a wash of light over steps, paths and patios. This product is rated IP67 meaning it is suitable for wet areas such as bathrooms as well as external lighting applications. An optional half shield accessory is available to reduce glare.
