Delivering Exceptional Lighting

Product Brochure

lightbout.iQ

Our love of lighting, the design process and the ability to transform spaces is central to everything we do.

Our services include:

- Lighting product specification and supply.
- Fast track lighting design service.
- Bespoke lighting products and custom LED solutions.
- Lighting controls, specification and supply.
- Retrofit lighting solutions for your property.
- Lighting upgrades with a personal consultation in your home.

With our in-depth knowledge of the lighting market we share an unparalleled level of combined experience with you.

From in-house technical expertise, a commitment to discovering new products and cutting edge test facilities: we ensure optimum results.

Our value surpasses that of lighting as a product - lighting is for people.

lightbout.iQ

OUR COMMITMENT TO YOU:

Project Pricing: Competitive pricing, we purchase directly from source and provide solutions to fit your requirements and budget.

Project Management: We provide a dedicated Sales Administrator providing you with a single point of contact to assist you through to completion.

On-Site Assistance: Your project will be supported by our in-house technical team who are experienced in resolving on-site queries.

Assembly and Testing: Our lighting technicians can assemble and customise products and we will fabricate linear profiles to required lengths. All products are tested for compatibility with leading controls manufacturers.

Packing and Delivery Schedule: You'll receive a full schedule of product lead times. Products are delivered to site when required and packaged by room saving time on site.

Aftercare and Warranty : The full manufacturers' warranty on all items will be extended to you along with a Project Manual detailing full specification of all products supplied. We look forward to supporting you after your project has completed. Over 80% of our business is from client referral and past projects. You remain important to us.

ARCHITECTURAL LIGHTS

lightbout.iQ offers a range of lights to suit all projects..

Considerations will include budget, light output, optics, colour rendering, colour temperature and dimming compatibility.

We recommend you visit our sales office where we will demonstrate a range of products to assist you in making an informed choice.

lightbout.iQ

LINEAR LED TAPE

Lightbout.iQ offers a range of linear LED products to suit every project. Ranging from off the shelf reels of linear LED tape and discreet profiles to custom encapsulated LED's for wet locations.

Our service includes cutting lengths and profiles to order with pre-connected tails for ease of onsite installation. This ensures the LEDs remain protected as they arrive to site in their profiles and that soldering is kept off site.

When purchasing LEDs considerations include light output, lit effect, colour temperature, colour rendering and IP rating. We will talk you through these to fine tune your choices and can demonstrate the full range in our showroom.
